Jeep Grand Cherokee

(01/2011 On)

Series MY12 on Limited and Laredo Models
(vehicles with screw in tow hook)

Big Tube™ Bar
Mirror Polished Alloy Finish Shown

Series MY11 Limited and Laredo Models
(vehicles with heavy duty tow hooks)

For the best in frontal protection, you can't go past the strength, quality and style of the Big Tube™ Bar designed specifically for the latest Jeep Grand Cherokee. Manufactured from hi-tensile, structural grade alloy and featuring 76mm centre tube and fully gusseted 63mm headlight tubes, the Big Tube™ Bar provides the best full frontal protection for the passengers, headlights, bumper and mechanics. This bar is designed with two integrated recovery points built into the 8mm thick plasma cut steel mounting system, which can be accessed through the front of the bullbar.

The tapered one-piece bumper incorporates a full width, braced lower protection skirt to provide ideal protection for the delicate cooling equipment. This design creates an extremely strong, tight and good looking fit for the bar, and also allows for full integration of the factory parking sensors into ECB's Big Tube™ Bar. For non parking sensor vehicles, capping pieces are provided to maintain the aesthetics of ECB's Big Tube™ Bar. Standard features include LED indicator/park light combinations, air directional cooling vents, spot light mounting points, ECB bumper lights and an aerial tab. All ECB products are Air Bag Compliant, ADR Compliant and are covered by the exclusive ECB Lifetime Guarantee, for total peace of mind.

- 76mm Centre & 63mm Shoulder Tubes
- 6mm One Piece Channel
- Fully Welded Construction
- ECB Bumper Lights
- LED Indicator/Park Lights
- Aerial Mounting Tab

WORLD'S BEST ALLOY BULLBARS

The refined Jeep Grand Cherokee demands the best accessories, and ECB have the perfect product for the task. Whether your cruising the open road or engaging in some recreational rough stuff, wherever your Grand Cherokee takes you, ECB has the best bullbar to add style and sports appeal combined with safety and protection.

When it comes to protecting your Jeep Grand Cherokee, it's worth remembering that quality really counts. Genuine ECB products are manufactured from hi-tensile, structural grades of alloy, ensuring the best performance, strength and protection.

The unmatched strength and reliability of an ECB Big Tube™ Bar provides the best in frontal protection bars that are styled to perfectly compliment the strong design of your Jeep Grand Cherokee, and they're tough enough to withstand almost anything the urban jungle or nature can dish out.

Not only do ECB protection bars meet Australian Design Rules - each one is also covered by ECB's exclusive Lifetime Warranty for complete peace of mind.

East Coast Bullbars are the Strongest Built, Best Engineered and Australian Made, all components that are required to be the World's Best Alloy Bullbars.
