

WORLD'S BEST ALLOY BULLBARS

The ever reliable Toyota Hiace range of vehicles demand the best accessories, and ECB have the perfect products for the task. Whether your cruising the open rural roads or fighting the hustle and bustle of inner city driving, wherever your Toyota Hiace takes you, ECB has the best frontal protection to add style complimented with safety and protection.

When it comes to protecting your Toyota Hiace, it's worth remembering that only the best will do. Genuine ECB products are manufactured from hi-tensile, structural grades of aluminium, ensuring maximum performance, strength and protection.

From the sporty 76mm Nudge Bar through to the unmatched strength and reliability of an ECB Big Tube™ Bar, ECB has a range of frontal protection products that are styled to perfectly compliment the design of your Toyota Hiace, and they're tough enough to withstand almost anything the urban jungle or nature can dish out.

Not only do ECB protection bars meet Australian Design Rules - each one is also covered by ECB's exclusive Lifetime Warranty for complete peace of mind.

East Coast Bullbars are the Strongest Built, Best Engineered and Australian Made, all components that are required to be the World's Best Alloy Bullbars.

ECB Big Tube™ Bar - Mirror Polished Alloy Finish Shown

For the best in frontal protection, you can't go past the strength, quality and style of ECB's Big Tube™ Bar for the Toyota Hiace. Manufactured from hi-tensile, structural grade alloy, this bumper over design is engineered to provide the best strength for the vehicle, cargo and passengers and is attached to the chassis of the Hiace using a plasma cut steel mounting system. The hi-tensile, tapered, one-piece bumper incorporates LED indicator/park light combinations, air directional cooling vents and two large air intake points to provide sufficient cooling for this vehicle. Fully gusseted 63mm x 4.2mm thick shoulder pipes, 76mm x 4.75mm thick centre tube, 6mm thick gusseted lower protection skirt, spotlight mounting provisions and an aerial bracket as standard features. To complete a great looking performance product, choose from ECB's range of premium, low maintenance powdercoated finishes, which provide a durable cost saving alternative to polishing.

Midi Tube 63mm Bar - Silver Hammertone Powdercoated Alloy Finish Shown

The tubular construction of the Midi Tube 63mm Bar contours perfectly to suit the design of the latest model Toyota Hiace. Manufactured from hi-tensile alloy with a tough 63mm diameter and 4.2mm thick centre tube, this fully welded, strong Midi Tube 63mm Bar provides premium frontal protection for the bumper, grille and radiator, whilst the plasma cut steel mounting system provides the strongest and best fit possible. Driving light mounting provisions are also standard inclusions. Choose from the ever popular mirror polished alloy finish or your choice from ECB's range of premium, low maintenance powdercoated alloy finishes, where bugs wash straight off.
