WHY CHOOSE AN ECB ALLOY BULLBAR

ECB Alloy Bullbars offer serious protection with a smarter, lighter design. Compared to traditional steel, our alloy construction helps reduce stress on your suspension, steering, and chassis without compromising on strength or style.

At ECB, safety is never an afterthought. Our engineering and design teams work closely to ensure every product integrates seamlessly with the advanced safety features of modern vehicles. All ECB Bullbars are ADR compliant and rigorously tested for Airbag compatibility, giving you peace of mind wherever the road, or the trail takes you.

Made to last, Alloy is naturally resistant to rust and corrosion, making them ideal for offroad conditions.

Designed with understated sophistication, ECB Bullbars are available in a polished or powdercoated finish and crafted to complement your vehicle's natural lines and the accessories you choose to enhance it.

FINISH OPTIONS

POLISHED

A highly reflective mirrored finish traditionally associated with an Alloy Bullbar.

TEXTURA BLACK

A fine textured matte black finish. This sleek but rugged finish is the modern day standard in bullbar finishes.

SILVER HAMMERTONE

Features a dimpled pattern that mimics the look of hammered or forged metal. This finish features a silver and black tone with a semi-gloss finish. This finish helps hide scratches, dents and other imperfections making it ideal for trucks and heavy use commercial vehicles.

BLACK RIPPLE

Features a glossy black presentation with a wave like ripple texture that sits mid way between the Textura Black and Silver Hammertone. Ideal for vehicles with gloss black accents.

WARRANTY

ECB Bullbars come with a Lifetime Warranty, giving you the peace of mind that your Bullbar will be free of structural defects in both the materials and workmanship. For full details on ECB's Product Warranty & Consumer Guarantees visit ecb.com.au/warranty-information
