

NISSAN PATROL

"LEGENDARY"

Automotive Protection Equipment and Accessories

Whether you're battling the bitumen or the bush ECB has a range of quality protection products for your Patrol that are sure to suit your needs. Wherever you're bold enough to go, you need quality protection equipment that is built tuff enough to bring you safely back home. That's why when it comes to protecting your Patrol and your family, it's worth remembering that quality really counts.

From the sporty 76mm Nudge Bar through to the unmatched strength and reliability of an ECB Big Tube Bar, ECB has a range of frontal protection bars and accessories that are styled to perfectly complement the Patrol's lines and like the Patrol, they're tough enough to withstand almost anything the urban jungle or nature can dish out.

Genuine ECB products are manufactured from high tensile, structural grades of aluminium ensuring maximum performance, strength and protection. Not only does every ECB protection bar meet Australian Design Rules - each one is also covered by ECB's exclusive Lifetime Warranty for complete peace of mind.

No matter what your requirements are, you can rely on ECB products for a distinctive individual style, true performance and great value for money.

When style, strength and quality are what you are looking for, insist on genuine ECB products.

When you're looking for the ultimate in vehicle protection, you can depend on the rugged, no compromise reliability of the ECB Big Tube Bar and Big Tube Winch Bar for the GU Patrol. These stylish Bumper-Replacement Bars are manufactured from high tensile structural grade alloys and feature fully gusseted 63mm shoulder pipes. Both Bars feature a tapered, 6mm thick, one-piece bumper that incorporates a full width, braced lower protection skirt, while a specifically designed steel mounting system ensures a neat and sturdy fitment. Indicator/park light combinations, neatly trimmed cooling vents, driving light mounting provisions and an aerial bracket are all standard features. For serious off-road enthusiasts, ECB offers a Winch Bar that will accommodate up to a 9,500lb low mount winch and both Big Tube Bars feature tapered designs that increase the approach angle of the vehicle. These ECB Big Tube Bars come in a range of superior, low maintenance powdercoated finishes, as well as the ever-popular mirror polished alloy finish.

Great sports styling, bumper and grille protection are just a few of the features of these modern and functional Nudge Bars for the GU Patrol. As well as providing decent frontal protection against costly bumps and nudges, these Bars also boast spotlight mounting tabs that will allow the easy fitment of a set of spotlights for those times when standard headlights simply will not project enough light. Designed and manufactured in Australia, these Nudge Bars are formed from high tensile alloy tubing and will never corrode or rust, and they are mounted to the chassis of the Patrol via a specifically designed steel mounting system. Each ECB Nudge Bar is designed to suit each individual model; therefore you can be assured of an aesthetically pleasing, functional and reliable design. Both bars come in a choice of polished or powdercoated finishes.

**GQ PATROL
BIG TUBE BAR**
Mirror Polished Alloy

The astute GQ Patrol owner will find it hard to go past the unmatched strength, quality and style of the ECB Big Tube Bar. This Bar is manufactured from high tensile structural grade alloys and features a 6mm thick one-piece centre channel.

Further strength is achieved via gusseted shoulder pipes and extra brace tubes act to both strengthen the bar and also reduce the gap between the shoulder pipes and the main bumper section. This Bar is engineered to accommodate the installation of low mount winches and comes standard with indicator / parklight combinations, spotlight mounting tabs and an aerial bracket.

The ECB Series 2 Roof Rack is a perfect accessory for when your Patrol just has no more cabin space to spare. This all alloy, strong, lightweight design is safe and very reliable, and comes with robust stainless steel mounting brackets and a wind deflector as standard. Designed and manufactured here in Australia to suit the rugged Australian lifestyle, this Roof Rack is designed to handle loads up to the Patrol's maximum roof carrying weight. Available in three different lengths (1900mm, 2100mm or 2400mm) and a range of powdercoated finishes, this Roof Rack for the Patrol is a must have accessory for anyone needing to carry extra equipment.
