

LANDCRUISER PRADO 3/2003 ON

"LEGENDARY"

Automotive Protection Equipment and Accessories

Whether you're battling the bitumen or the bush ECB has a range of quality protection equipment for your Prado that is sure to suit your needs.

When it comes to protecting your Prado, it's worth remembering that quality really counts. Genuine ECB products are manufactured from high tensile, structural grades of aluminium ensuring maximum performance, strength and protection.

From the sporty 76mm Nudge Bars through to the unmatched strength and reliability of an ECB Big Tube Bar, ECB has a complete range of frontal protection bars and accessories that are styled to perfectly complement the Prado's lines, and like the Prado, they're tough enough to withstand almost anything the urban jungle or nature can dish out.

Not only do ECB protection bars meet Australian design rules each one is also covered by ECB's exclusive lifetime warranty for complete peace of mind.

What ever your requirements are, you can rely on ECB products for a distinctive individual style, true performance and great value for money.

When style, strength and quality are what you are looking for, insist on genuine ECB products.

Built to Perform - Guaranteed to Last!

BIG TUBE BAR - GX Model

BIG TUBE BAR
With Winch Integration

Engineered to accommodate the installation of low mount winches, this practical winch combination bar has been cleverly designed for strength and ease of use. It is the ultimate vehicle recovery combination.

When you're looking for the ultimate in vehicle protection, you can depend on the rugged, no compromise reliability of the ECB Big Tube Bar. This BTB is manufactured from high tensile, structural grade alloys and features fully gusseted 63mm headlight tubes. The tapered one - piece bumper incorporates a full width, braced Lower Protection Skirt for added radiator protection, while the specifically designed steel mounting system ensures a neat and sturdy fitment. Indicator/Park Light Combinations, Air Directional Cooling Vents, Driving Light mounting points and an Aerial Bracket are all standard features. To complete a great looking performance product, why not choose from ECB's range of superior, low maintenance powder coated finishes? *A durable low cost alternative to polishing.*

76MM NUDGE BAR

Designed and manufactured in Australia to suit our harsh Australian conditions, this 76mm x 4.7mm Nudge Bar is formed from high tensile alloy tubing and will never corrode or rust. It also has equal or better strength than poor quality, thinner section, imported stainless steel products and is up to 50% lighter in weight. Each ECB Nudge Bar is designed to suit each individual model; therefore you can be assured of an aesthetically pleasing, functional and reliable design. The 76mm Nudge Bar comes complete with spotlight mounting provisions, together with a choice of polished or powder coated alloy finishes.

TYPE 8 BAR

The tubular construction of the Type 8 Bar contours perfectly to suit the Prado's aerodynamic styling. Manufactured from high tensile alloys, the Type 8 Bar provides optimum frontal protection for the bumper and grille, fitting sturdily with a steel mounting system. An extra lower centre tube provides additional radiator protection while Driving light mounting provisions are standard inclusions. For a superior low maintenance finish where bugs wash off easily, why not choose from ECB's range of superior, low maintenance powder coated finishes? *A durable alternative to polishing.*

Silver Hammertone Powder Coated Alloy

63MM SERIES 2 NUDGE BAR

These modern and functional 63mm Series 2 Nudge Bars provide great sports styling and have the height advantage to offer bumper and grille protection. Formed from high tensile alloy tubing, the 63mm Series 2 Nudge Bars have equal or better strength than poor quality, thinner section, imported stainless steel products and are up to 50% lighter in weight. Spotlight mounting provisions together with a choice of finishes are standard inclusions

SERIES 2 ROOF RACK
Silver Ripple Powder Coated Alloy

A Series 2 Roof Rack is the answer when safe and reliable extra load carrying is required. The high tensile alloy construction won't rust and offers the strongest possible load capacity with the lightest weight design. The Series 2 Roof Rack features a built in wind deflector and is supplied with robust stainless steel mounting brackets and fitting hardware. Choose from a range of powder coated finishes.
