The Features of ECB

ECB's Benefits

Built to Perform - Not to a Price

ECB are proud to claim that their channels are not jigsaw puzzles that are bolted together, or even multiple sections welded together. Where any welding is required, it is done to the highest standards by qualified welders, not machines.

Anti-Corrosive Nature of Alloy

The composition of ECB's alloy has a very high resistance to corrosion. Rust not only looks unappealing but greatly reduces the strength of the metal. Rust can and will weaken the structural integrity of a steel bullbar effectively rendering it useless over time.

Australian Made

Established in 1971, we utilise over 46 years of experience designing, engineering and building products in Australia to suit Australian conditions. We can ensure the best quality controls and help support the local economy and employ over 90 proud Australians.

Weight Saving Benefits

An ECB alloy bullbar is typically half the weight of a steel bullbar. Unnecessary suspension upgrades are not required. The reduced weight also contributes to increased fuel economy and less wear and tear on tyres, suspension and braking components.

Welds That Work

ECB uses only the strongest welds and welding techniques to ensure every product is as structurally sound as possible. MIG (Metal Inert Gas) welding techniques are employed ensuring the welds are as thick as the thickest section of alloy's being joined together.

Lifetime Warranty

ECB provide a lifetime warranty and consumer guarantee on all of our manufactured products. This guarantee highlights the confidence in our ability and provides complete peace of mind for your purchase for the lifetime you own your vehicle.

Product Care

Polished Products

Being a premium mirror polished finish, regular maintenance will be required to keep that iconic ECB shine. We recommend using our own brand of Aluminium Polish, This formula has been tried and tested and in our opinion is the world's best standard.

Directions: Apply a small quantity of Aluminium Polish to a clean soft cloth and rub the metal surface. The longer the rubbing the brighter the surface becomes. Wipe off Aluminium Polish with clean soft cloth. Also suitable for motorised buffing machines. **Note: There are more specific details on the polish bottle. Please read before use.**

Powdercoated Products

Our powdercoated finishes are very low maintenance. Infact there is actually very little you will ever need to do for this product. Just clean it as you would your car and it will stay looking good as new.

ECB Aluminium Polish

When you're looking for that showroom finish look for your polished automotive products, you can depend on the no compromise quality of East Coast Bullbars Aluminium Polish. This specifically designed product is the best polish available and we guarantee that this \$#!+ works. With over 40 years of manufacturing polished alloy products we have trialled a large range of different polishes on the market and believe without a doubt that nothing beats the finish quality of East Coast Bullbars Aluminium Polish.

East Coast Bullbars Aluminium Polish is excellent for use by hand and is ideal for polished bullbars, nudge bar and stainless steel products. This polish will clean, polish and protect your product from the elements whilst bringing your products back to that showroom finish look.

Hyundai Tuscon GO

Stage 1

- Test drive vehicle to ensure all driver assists are correctly working and to gauge effectiveness. Park on a flat level surface.
- Apply parking brake and lift bonnet.
- Unwrap ECB Protection bar and disconnect mounts. Discard bolts.
- **NOTE:** This product does not suit models fitted with optional Smart Sense.
- Ensure these instructions are left with the vehicle owner and/or operator.

Stage 2

- Remove four (4) push pull clips and two 10mm head bolts from the top of the grill filler panel.

Stage 3

- Remove three (3) plastic clips from the front of the wheel arch (each side) and one Philips screw from bumper wing to guard (each side).
- Remove two (2) 10mm head bolts from underside of bumper in the centre. Pull out on the rear of the bumper bar wing to un-clip the retainer.
- Disconnect the light plugs and pull forward to release the bumper from the vehicle.

76mm Nudge Bar

Stage 4

- Remove foam impact member from the bumper support.

Stage 5

- Fit the ECB steel mounting bracket (supplied) and steel mount support plates (supplied) using M10 x 70 x 1.5 bolts, flat and spring washers and nuts (supplied).
- Trim foam impact member to fit around the steel mounts.

Stage 6

- Trim the plastic grill to fit over the steel chassis mounts.

NOTE: Trim area is individual to the vehicle you are working on. The photo is approximate and for sample purposes only.

- Re-fit the bumper in the reverse order of step 2 & 3.

Hyundai Tuscon GO

Stage 7

- Fit the protection bar onto the steel mounting brackets and fasten using M10 x 40 x 1.5 bolts, flat washers, spring washers and nuts (supplied). Align the bar with the vehicle and tighten all bolts.

Stage 8

- Test drive vehicle to ensure all driver assists are working as per manufacturers specifications.

Final Checks & Installation Kit

Ensure Number Plate is Clearly Visible

Note: When fitting/refitting the licence plate to the vehicle, ensure there is no obstruction to licence plate vision in accordance with local authorities. If required relocate licence plate to an alternate location.

Further VFPS Notes

1. Do not attach VFPS to the vehicle using anchorages not intended for this purpose (e.g. engine mounting bolts).
2. Do not use this product for any vehicle make or model, other than those specified by the VFPS manufacturer.
3. Do not remove the plaque or label from the VFPS.
4. Do not modify the structure of the VFPS in any way.
5. No accessory or fitment should project forward of the VFPS forward profile.
6. **Ensure these instructions are left with the vehicle owner and/or operator.**

Important Information

Periodically check bolts and nuts for correct tightness, especially if traveling on rough roads.

Installation Kit

1 - Pair front mounting brackets - (YNBHU100)	24 - M10 flat washers
4 - Chassis support brackets - (NBHU100SY_C6MS)	12 - M10 spring washers
8 - M10 x 1.5 x 70 bolts	12 - M10 x 1.5 nuts
4 - M10 x 1.5 x 40 bolts
